

INCLUSIVE EDUCATION

- support to learn better together
- in a regular class
- in the neighbourhood school
- with support to participate in and contribute to the life of the school

Isn't this the better education we want for ALL students?

ONTARIO COALITION FOR INCLUSIVE EDUCATION

The Coalition believes in the importance of an inclusive learning environment for all students, where:

- Education occurs in schools where the student would normally attend if s/he did not have a disability.
- Education occurs in age-appropriate regular education classes where all students are full and welcomed members of the class
- Education of students is under the direct responsibility of regular education teachers.
- Education ensures that all students participate in co-curricular and extra-curricular activities.
- Education is provided through a curriculum having high standards and expectations relevant to students' needs and abilities.
- Education leads to the acquisition of skills and knowledge which will support a meaningful and productive adult life within the community.
- Education is driven by policies, programs, and practices which are equitable for all students.
- Principals have the responsibility to develop an inclusive school culture where all students and personnel are valued.

Education planning for inclusion

These workshops will assist families, educators, support personnel, and individuals to plan for a positive future with inclusive education.

The sessions will focus on:

- recognizing the potential of the Individual Education Plan (IEP)
- planning based on an individual's strengths
- selecting objectives that promote inclusion
- merging individual and curriculum objectives
- identifying ways to modify instruction in the regular classroom using our innovative "Curriculum Pathway"
- discussing constructive methods of contributing to the writing of the IEP
- identifying collaborative communication strategies for the IEP team

How to plan for a workshop in your community

We invite organizations, agencies, schools and school boards to contact us to set up a time to hold a workshop in your community.

Workshop format is flexible – one or two day sessions are available.

Our coordinator would be happy to work with you to determine what would best meet the needs of the individuals in your group.

We encourage groups to partner with each other in order to collaborate for more effective planning.

Collaboration ...the KEY is "WE"!

Teamwork – Partnership
Belonging – Commitment
Finding solutions together makes us stronger.

World Education Forum 2000 - Inclusion in Education -

"Learning and teaching are varied and differentiated, collaborative, active, and draw on all available resources within teachers and other staff, learners, parents/carers and communities."

This workshop proposes to increase the capacity of:

- educators, schools and school boards to facilitate inclusion
- parents to participate in the planning process
- lessons to respond to the diversity of learners
